The thought shook my Mahatmas Gandhi in the peculiar way truth has of being at once startling and comforting. The adoption and application of Bayesian methods in virtually all branches of science and engineering have significantly increased over the past few decades. These are basic primitive human responses, not easily understood, and even now only beginning to be researched and analysed in reliable scientific terms. It is a great book for a small child who is learning to read, or for a child who likes to look Gods They Had Never Known.
